

GO-VIRTUAL
simplify the complex

SOLUTIO Mobile App
Everything captured. Nothing overlooked.

The mobile app that finally puts your job sites, work hours and job sheets on true autopilot.

One app. Every registration.

A single mobile solution for fast recording, accurate data and smoother operations. Modern, reliable and seamlessly integrated with your SOLUTIO planning.

Project & Personal Documents

All project and employee documents right at your fingertips. Your team always has the information they need, wherever the job takes them.

Digital Job Sheet

On-site registration made effortless: hours, trips, photos, notes, materials and checklists. Everything syncs instantly, speeding up your entire admin workflow.

Time Tracking

Logging hours is fast and intuitive with START | STOP or manual entry. Your organization gets accurate daily records without extra admin effort.

Mobility

Automatic GPS tracking of distance, duration, drivers and passengers. With Google Maps, you get a clear overview of every trip, ready for smooth HR processing.

GO-VIRTUAL
simplify the complex

The **smart link** between **job site** and **office**

SOLUTIO's mobile app brings real-time clarity to your daily operations. Hours, trips, job sheets and documents are captured instantly and sent straight back to the office. **No unreadable notes, no missing information, no delays between execution and administration.**

Every registration starts with the employee on-site and flows seamlessly into planning, administration and invoicing. Your organization always has up-to-date, accurate information, ready to plan faster, work more transparently and invoice sooner.

For teams that **want to move forward**

The mobile app is built for crews that need to act fast, for planners who rely on accurate data and for admin teams eager to work more efficiently. Compact to use, powerful in impact.
