

# All-in-one solution for planning & mobile field registration

SOLUTIO brings advanced planning **tools together with effortless mobile registration**, helping you digitalise workflows, deploy teams more intelligently and eliminate administrative clutter.

## Plan the way you work

From **construction and installation to manufacturing, services and crane rental operations**, SOLUTIO adapts to your organisation. Whether you work project-based or run continuous operations, the platform fits your planning reality.

### Project & resource planning

Up to 15 flexible planning views—including operational schedules and Gantt planning, built for every type of project and resource flow.

### Automatic workforce planning

Tasks, people and equipment are automatically matched and scheduled with precision, ensuring efficient, error-free planning at scale.

### Mobile field registration

Teams capture working hours, travel time, materials, photos and notes directly on their smartphone or tablet. Everything is synced in real time.

### Crane rental planning

Purpose-built for crane rental companies: from fleet coordination to on-site registration and invoicing, all in one intuitive solution.

**GO-VIRTUAL**  
simplify the complex

## Take control of your daily operations

### Operational day planning

Manage teams, vehicles and tasks  
in real time.

### Transport & logistics planner

Plan routes and deliveries efficiently, reducing empty miles and last-minute chaos.

### Mobile App

Capture working hours, work orders, GPS locations and photos directly on site.

### Document management & access

All documents at your team's fingertips—always available, always up to date.

### Integrations & APIs

Seamless connections with ERP, CRM and all your essential business systems.

## Field visibility, made simple

With the mobile app, your teams always know what to do and where to go. Start/stop tracking ensures accurate registration of working hours and travel time, giving you a transparent and reliable planning flow.
