The smart engine
behind your **time** and
payroll workflows

VIRO automates time tracking, allowances and benefits, fully compliant and error-proof. Save time and boost HR efficiency.

Intelligen HR
automation

VIRO is ideal for HR and payroll teams in medium-sized and large organizations with **complex pay structures, diverse allowances or mobility schemes**, who want to save time and ensure accurate, compliant calculations.

Automatic payroll processing

VIRO automatically processes working hours, mobility, expenses and allowances, fully in line with collective labour agreements and internal policies.

Flexible rule engine

The software supports an unlimited number of collective labour and company rules, which can easily be assigned to specific departments or groups.

Seamless system integration

Through a powerful API, VIRO integrates seamlessly with HR platforms, time-tracking tools, ERP systems and other business applications.

Easy reporting

HR teams securely share data with management, employees and external systems.

GO-VIRTUAL
simplify the complex

Your
HR process
under control
